WeVerify for reliable Third Party Verification.

It's easy to comply with regulatory or industry requirements when we verify your sales and other transactions. Superior Contact offers effective live agent and automated Third Party Verification (TPV) programs with regimented scripting and recorded call archives available on demand.

Calls can be transferred to a live operator or routed through an automated call handling program to complete your verification and confirm order information under the strictest standard. Every contact is recorded and archived per the compliance standards you provide. For the convenience of your customers, we even offer on the call translation services in over 200 languages.

You'll find that every program is well supported with the right blend of experience, customer focus and advanced technology for optimal results.
